Unternehmensprofil

This medium-sized company is very agile and dynamic due to its business. In the IT department, it employs almost 100 people in Frankfurt, 17 of whom are responsible for SAP applications internally. 10 additional external employees are added. Besides a multicultural setup, there are numerous other factors that speak for this employer.
In addition to a 38.5 hour week, there is a flextime account on which overtime is collected and either compensated in free time or paid out. The salary is paid on 12 months (all fix). Holiday pay (July) and Christmas bonus (November) are also paid. Working hours are also flexible (core working hours from 10 a.m. to 3 p.m.). With 33 days vacation per year one is ahead of its competitors.

One already works on the HANA DB, BW and FI are already migrated. The logistics modules will follow next.

Ihre Aufgaben

You will work as an SAP consultant in a strongly team-oriented environment. For each module there is a duo - you will be the lead and guide the other colleague (a junior). You will implement new functionalities, processes and locations, perform small and medium-sized change requests, manage projects such as connecting a B2C provider to SAP and take care of the 2nd level support. The key user structure will help you with this.

Ihr Anforderungsprofil

- You have already gained experience as an SAP SD Consultant.
- You can customize and know the relevant business processes.
- You can read ABAP code, ideally debug and talk to colleagues from development, or are interested in further training.
- You are a team player, not a lone fighter.
- You speak fluent English and good German.
